

APAC HPC-AI 2018 Competition

[Register for 2018 APAC HPC-AI Competition
and Opportunity to represent APAC at the International SCC ISC19
Competition!](#)

Registration close: **March 23rd, 2018**
Competition Launch: March 27th, 2018 at SCA18, Singapore

HPC-AI Advisory Council, a leading global organization for High Performance Computing (HPC) and Artificial Intelligence (AI) research, outreach, and education, and the National Supercomputing Center Singapore (NSCC) are inviting teams from universities and technical institutes in the Asia Pacific (APAC) to participate in the [2018 APAC HPC-AI Competition](http://hpcadvisorycouncil.com/events/2018/APAC-AI-HPC/) (<http://hpcadvisorycouncil.com/events/2018/APAC-AI-HPC/>).

What is APAC HPC-AI Competition?

The first APAC HPC-AI competition aims to educate, empower, and bring together the next generation technology leaders. Participants will get the unique opportunity to showcase their HPC and AI expertise, in a friendly yet spirited competition that builds critical skills, professional relationships, competitive spirits and lifelong comrades. The winning team will have a reserve spot as one of the representatives of the APAC region at the Student Cluster Competition (SCC) at ISC19 in Germany and a cash prize of \$4,000 (USD).

Who should participate?

The competition is open to teams from universities and technical institutes in the APAC region who wish to demonstrate their programming ability in the traditional and emerging disciplines in the field of HPC and AI. For more information, competition info and rules, please visit the [competition website](#).
